DETAILED ACTION

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claims 14 and 19 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 14 and 19 direct to non functional information on a optical disc . Since the information do not provide any functional interrelationship to the optical disc for controlling the operation of the disc, be read out from the disc to perform different applications to access the information on the disc , or impart to any software and hardware structural components to perform a function that is processed by a computer , the information themselves can not make them statutory . See MPEP 2100. It is noted that claims 14 and 19 direct to nonfunctional information on the optical disc , not to manufacturing an optical disc.

Applicants argue that “ the invention recited in Claim 14, the claimed recording medium includes the physical features recited in the claim. Accordingly, it is respectfully submitted that the claimed medium is an article of manufacture in accordance with 35 U.S.C. §101. Accordingly, it is respectfully requested that the rejection of Claim 14 under 35 U.S.C. § 101 be withdrawn. “ In response it is noted that applicant argument does not reflect the claims and specification , Nowhere the specification and claims do they describe or recite a method or apparatus that manufacture the medium.

Further, it is noted that the phrase "an article of manufacture" are not defined and described in the specification.

Allowable Subject Matter

3. Claims 15-18 are allowed.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
